

Environmental Policy

The environment is where we live and where we operate our manufacturing facilities. As part of our commitment to excellence, we must integrate environmental protection, public acceptability, and economic sustainability into all aspects of our operations.

Hence we are committed to:

- Comply with applicable environmental laws and regulations as a minimum standard.
- Strive to provide environmental protection based on best practices appropriate to our industry;
- Integrate pollution prevention, waste reduction, and resource conservation targets as part of the company's objectives setting and performance review processes;
- Develop, maintain, and continuously improve our environmental management system;
- Measure the effectiveness of our environmental management system and evaluate physical conditions through regular audits and reviews.
- Show continuous improvement in compliance to our environmental standards are to our overall environmental performance;
- Communicate proactively with the public and interested stakeholders on environmental issues. This includes sharing information and communicating this policy to all personnel and making it available to interested parties.

Maintaining and preserving the environment we live in is our responsibility and our commitment.
